# BMW R 1200 GS Standard maintenance sheet

R 1200 GS (K25) · 110 PS (81 kW)

Years : 2010–2012  Generated on : 04 November 2026

## Technical specifications

Petrol | Engine code : BMW Boxer 1170 Air | 1 170 cm³ | Manual 6

## Maintenance schedule

≈: estimated reference — the vehicle's service indicator prevails.

| ITEM | INTERVAL | |
|---|---|---|
| **Oil and filter change** | **≈ 10,000 km or 1 year** | JASO MA or MA2 approved four-stroke motorcycle oil (JASO MB on scooters): an "energy conserving" car oil makes the wet clutch slip. Change it more often in city use or on track. |
| **Brake fluid** | **Every 2 years** | Replace the fluid in both circuits (and the hydraulic clutch if fitted), whatever the mileage; dark fluid has absorbed moisture. |
| **Fork oil** | **≈ 30,000 km** | Fork oil change and seal check; an oil film on the tubes means a seal needs replacing before it contaminates the brake caliper. |
| **Shaft drive** | **≈ 20,000 km** | At each service: final-drive seal tightness, rear-wheel play and final-drive oil level or change as listed in the bike's service book. |
| **Spark plugs** | **Every 20,000 km** | Replace the full set; worn plugs raise consumption and cause misfires. |
| **Air filter** | **Every 40,000 km** | Replace more often in dusty conditions. |
| **Valve clearance** | **Every 10,000 km** | Check and adjust if needed, often together with the plugs; too little clearance burns the valves, too much makes the engine noisy. |
