Ford Transit Custom 2.0 EcoBlue 150 maintenance sheet

Transit Custom II · 150 PS (110 kW)

Years : 2023–present Generated on : 04 November 2026

Technical specifications

Diesel | Engine code : Ford 2.0 EcoBlue | 1 995 cm³ | Automatic 8

Maintenance schedule

≈: estimated reference — the vehicle's service indicator prevails.

ITEM	INTERVAL	
Oil and filter change	**≈ 30,000 km or 2 years**	Typical interval: 30,000 km or 24 months, whichever comes first. WSS-M2C913-D / WSS-M2C950-A — Engine, model year and severe use may require a shorter interval; do not exceed the service warning. The listed oil approvals are not interchangeable: check the one for the engine.
Brake fluid	**Every 2 years**	Brake fluid: generally replaced every 2 years; inspect the brakes at each service.
Timing belt	**150,000 km or 10 years**	Replace the complete kit (belt, tensioners and usually the water pump) at whichever comes first; a broken belt destroys the engine.
Air filter	**60,000 km or 4 years**	Replace more often in dusty conditions.
Cabin filter	**30,000 km or 2 years**	Often replaced at each service; earlier if smells or persistent misting appear.
Diesel filter	**60,000 km or 4 years**	Drain any water at each service; a clogged filter causes loss of power.

Service record

DATE	MILEAGE	WORK DONE	WORKSHOP

DATE	MILEAGE	WORK DONE	WORKSHOP

Indicative intervals and costs: adapt maintenance to the engine, use and manufacturer’s instructions.
