

Harley-Davidson Pan America 1250 1252

Special maintenance sheet

Pan America 1250 · 152 PS (112 kW)

Years : 2021-present Generated on : 12 October 2026

Technical specifications

Petrol

Engine code : Harley Revolution Max 1250

1 252 cm³

Manual 6

Maintenance schedule

≈: estimated reference — the vehicle’s service indicator prevails.

ITEM	INTERVAL	
Oil and filter change	≈ 8,000 km or 1 year	JASO MA or MA2 approved four-stroke motorcycle oil (JASO MB on scooters): an “energy conserving” car oil makes the wet clutch slip. Change it more often in city use or on track.
Brake fluid	Every 2 years	Replace the fluid in both circuits (and the hydraulic clutch if fitted), whatever the mileage; dark fluid has absorbed moisture.
Fork oil	≈ 30,000 km	Fork oil change and seal check; an oil film on the tubes means a seal needs replacing before it contaminates the brake caliper.
Chain kit (chain and sprockets)	≈ 25,000 km	Lubricate and check the tension every 500 to 1,000 km and after rain; replace chain and sprockets together when the chain no longer holds its tension or the teeth are hooked.
Spark plugs	Every 48,000 km	Replace the full set; worn plugs raise consumption and cause misfires.
Air filter	Every 16,000 km	Replace more often in dusty conditions.
Coolant	Every 3 years	Replace the coolant and check the hoses and radiator; check the level cold between services.
