Automatic 6

Maintenance schedule

INTERVAL

Typical interval: 15,000 km or 12 months, whichever comes first.
ACEA C3 — Engine, model year and severe use may require a shorter interval; do not exceed the service warning. The listed oil approvals are not interchangeable: check the one for the engine.

Brake fluid: generally replaced every 2 years; inspect the brakes at each service.

Replace more often in dusty conditions.

Often replaced at each service; earlier if smells or persistent misting appear.

Drain any water at each service; a clogged filter causes loss of power.

Service record

WORKSHOP

DATE	MILEAGE	WORK DONE	WORKSHOP

Indicative intervals and costs: adapt maintenance to the engine, use and manufacturer’s instructions.
